

Re: Recommendation letter

To Whom It May Concern

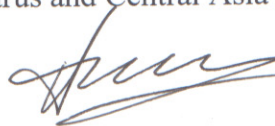

On behalf of Philips Company, we would like to express our great satisfaction with the work and professionalism that Office Solutions and Steelcase Companies demonstrated during all stages of our new St Petersburg office project.

Philips's aim was to build up new headquarters with an atmosphere that would attract new talents. Basing on existing Philips experience around the globe, Office Solutions determined our main needs related to the office and created a space planning that could be reconfigurable in accordance with Philips's future changes and needs. Together, we refined the space configuration in terms of lighting, color harmonies, surface materials, acoustics and functional details to create a pleasurable work environment.

Especially, we would like to highlight the fact that Office Solution participated the project supervision with a fully satisfying result. Office Solutions managed furniture installation in compliance with the time schedule that had been defined. We are pleased to note that the quality of the furniture, supplied by Steelcase, fully comes up to our expectations. Due to the fact that Office Solutions is international Company we had not any disagreement in payment terms based on Philips corporate standards and existing worldwide modern practice.

In view of the foregoing, we would recommend these partners to anyone considering relocating or purchasing furniture. We are convinced you will have the same positive experience that we had.
